Background

On November 8, 2011, the FAA published Clarification of Policy Regarding Designated Aircraft Dispatcher Examiners (76 FR 69171, 69172). The comment period closed on December 8, 2011.

In a letter dated November 18, 2011, Sheffield School of Aeronautics requested a five month extension of the comment period to allow the part 65 dispatcher certification course operators, which often are small businesses with limited resources, sufficient time to review and comment on the guidance material. While the FAA concurs with the petitioners' requests for an extension of the comment period, it does not support a five month extension as requested by the petitioner. The FAA finds that providing an additional 60 days is sufficient to provide meaningful comment.

The FAA does not anticipate any further extension of the comment period for this guidance material.

Extension of Comment Period

In accordance with 14 CFR 11.47(c), the FAA has reviewed the request for extension of the comment period to the proposed guidance material. The petitioner has shown a substantive interest in the guidance material and good cause for the extension. The FAA has determined that extension of the comment period is consistent with the public interest, and that good cause exists for taking this action.

Accordingly, the comment period is reopened and extended until February 8, 2012.

Additional Information

A. Comments Invited

The FAA invites interested persons to participate in the development of this guidance material by submitting written comments, data, or views. The most helpful comments reference a specific portion of the guidance, explain the reason for any recommended change, and include supporting data. To ensure the docket does not contain duplicate comments, commenters should send only one copy of written comments, or if comments are filed electronically, commenters should submit only one time.

The FAA will file in the docket all comments it receives. The FAA will consider all comments it receives on or before the closing date for comments. The FAA will consider comments filed after the comment period has closed if it is possible to do so without incurring expense or delay. The agency may change this guidance material in light of the comments it receives.

Under 14 CFR 11.35(b), if the FAA is aware of proprietary information filed with a comment, the agency does not place it in the docket. It is held in a separate file to which the public does not have access, and the FAA places a note in the docket that it has received it. If the FAA receives a request to examine or copy this information, it treats it as any other request under the Freedom of Information Act (5 U.S.C. 552).
